

# **A Primer: How to use this site -- Read Me First!**

**Welcome to the Boat Builders of Ontario site**

**This is a history book project dedicated to the recreational boat building industry in the Province of Ontario from 1500 BC to the present day**

**This is a perpetual work in progress. Additional content will be added as new information and photos are obtained.**

**This is divided into two parts:**

**Part 1 is a general history of five main periods in boatbuilding. Each period constitutes a specific book. At present four books are available, the fifth, covering modern day builders, is currently in progress.**

**Part II is specific to a given builder.**

**To access the various sections, click on the white title in the blue site cover page. A small page will appear from the .pdf file. At the bottom of this display there are two options:**

- 1) Download, which will allow you to download the contents to your computer**
- 2) A second underlined title for the section. If you click on this, the page will expand significantly, allowing you to easily read the text and view the photographic details**
